# About

## Since 2016

Reliable Solutions was founded in the year 2016 with the soul purpose of bringing in development into the manufacturing industry, through CIM practices and industry 4.0 ideologies. We are a CIM centre and a leading provider of comprehensive manufacturing and engineering solutions- specialising in both software and hardware reselling and custom manufacturing service.

## Our Company

We serve a diverse range of industries. Our clients range from small businesses to large corporations, all benefiting from our comprehensive solutions tailored to their specific needs

## Our Vision

To be the leading provider of integrated CIM solutions, empowering industries worldwide to achieve excellence through innovation, technology, and sustainable manufacturing practices.

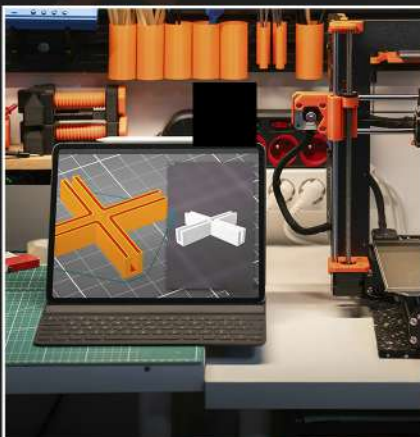

## Our Mission

At Reliable Solutions, we are dedicated to transforming the manufacturing landscape by offering state-of-the-art CAD/CAM/CAE software, advanced hardware, and comprehensive engineering services. Our mission is to drive technological advancement, enhance productivity, and deliver superior value to our customers through continuous innovation, exceptional customer service, and a commitment to Sustainability.

## Our Best Services

### Software

Examine the extensive selection of CAD/CAM/CAE software required to increase industry productivity.

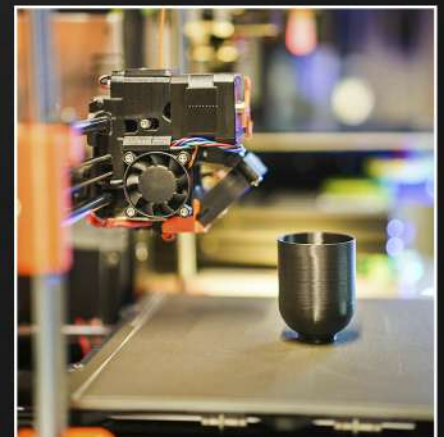

### Engineering

Our expertise lies in the machining and production of diverse customized projects.

### Hardware

Investigate the numerous 3D scanners and printers to advance into industry 4.0.

# CRAFTING SMART SOLUTIONS

## Autodesk Software

**Design and make anything with Autodesk software.** Autodesk's Design and Make Platform helps you get everyone on the same page to plan, design, construct, and operate better projects. Explore all the software, from conceptual design to detailed documentation. Streamline collaboration and boost productivity across your entire project lifecycle.

## SolidCAM Software

**Design and make anything with Autodesk software.** The Solid Platform for Manufacturing The core strategy of SolidCAM focuses on integration in the leading 3D CAD systems, SOLIDWORKS and Autodesk Inventor. This strategy has created major growth and established SolidCAM as both the leader in Integrated CAM, as well as one of the most powerful CAM systems available

## Cimatron Software

**CAD/CAM for Tooling with Unrivalled Productivity** Stay competitive across your entire range of operation with integrated CAD/CAM software that delivers major advantages for mold, die, and manufacturing shops. While Cimatron is at its most powerful when used as a fully-integrated system, it also provides standalone solutions for faster quoting, tool design, electrode creation, and NC programming.

## NCG CAM Software

### Standalone CAM Software

Machine Complex Parts with Ease using NCG CAM Standalone CAM Software. Powerful, Reliable & Affordable Advanced 3D CAM Software. NCG CAM is perfect for the high-speed machining of moulds, dies, prototypes and precision surface machining.

# MANUFACTURE WITH EXCELLENCE.

**Cosmos CVM 640**

**Cosmos CVM 1370**

**Jaewoo ARV 800**

# COLLABORATIVE PARTNERS

## ERA Tech Solutions

ERA Tech Solution offers end-to-end IT infrastructure services, including CCTV, biometric systems, server/network solutions, and IT AMC support. We also provide computer sales, Autodesk software, antivirus/firewall solutions, and refurbished desktops/laptops.

## Rigicut Tools Pvt Ltd.

Rigicut offers a wide range of brazed tools, profile tools, end mills, reamers, ball nose cutters, and drills, along with customized tool solutions. Our precision tools are designed to meet the specific needs of diverse machining applications.

RIGICUT TOOLS  
PRIVATE LIMITED

## Blum-Novotest

Creaform offers precision measurement solutions with BLUM measuring components and machines, along with Novotest test engineering services. These advanced tools ensure high accuracy for quality control and testing applications.

## Formlabs

Formlabs is a leading innovator in the 3D printing industry, specializing in high-quality, precision-engineered 3D printers and advanced printing materials. With a commitment to empowering creators and businesses,

## Creaform

Creaform provides metrology-grade 3D scanners optimized for large parts, offering high-accuracy portable scanning and probing systems. Their optical portable CMM solutions are designed for precise shop floor measurements and inspections.
